

Dimensione Gioco

COURSES PROGRAM - SCHOLASTIC YEAR 2022/2023

La Giocomotiva is a monolingual and bilingual nursery and kindergarten. We are present in Milan with 9 schools. Our educational approach is based on the modernity of the "theory of multiple intelligences". Our educational offer is enriched by many afternoon courses for children aged 2 to 6, not only physical disciplines but also cooking labs and STEAM activities (science, technology, engineering, arts, mathematics). Furthermore, from this year La Giocomotiva enriches the program with the brand-new courses of Karate and STEAM, as well as the courses of Dance and the Pastry Labs. The courses are held at La Giocomotiva in via Boccaccio and are also open to those who are not registered with La Giocomotiva. For info and reservations: dimensionegioco@lagiocomotiva.it
